Eberhard Karls University of Tübingen
Faculty of Philosophy
Department of Linguistics
BA Computational Linguistics/General Linguistics
Wintersemester 2023

Login, Platforms

- You can use your login-info you got from the secretary after enrolling for all platforms → Alma, Moodle, Ilias, Horde
- **Alma** → Campus portal, used for course/credit overview, signing up for exams, TRACS courses, language courses, certificates/notices
- **Moodle** → Portal for most course materials, links; in your first year, you will probably only need this one.
- **Horde** → Student mails; everything that is happening at the uni/your courses etc. will be announced via mail, you should check it everyday!!! (prolly more than once)

Note!!! For CL you DO NOT (you really can't) need to sign up for classes, only FOR EXAMS!

Courses for First Semester

- **Linguistic Fundamentals** (6CP)
- **Methods I.** (6CP) → Logic (3)
→ Programming and Data Analysis (3)
- **Einführungsmodul Computerlinguistik** (12CP) → Introduction to CL (3)
→ DSA I. (6)
→ Tutorium/Labs DSA (3)
- + *Language Courses or som'n else I dunno, you're free to choose*

FAQs for students ▾
[FAQs for students](#)

Information for students ▾
All students of the University of Tübingen can use the **student functions** available via alma (certificates, information on study programs, BAföG certificates, change of address).
Registration for assessment is available via the alma portal for all degree programs, beside of some older programs.
Please direct your assessment-related enquiries to your examination office.
You can find the **online course catalogue** on alma.
If you have questions regarding the contents of your study program, please ask at your department.

Applying for a different program or part of a program?
Are you a student wishing to change to a different program or subject and you need to apply for it (e.g. It is a restricted-admission Bachelor's program, a Master's degree program or a Master of Education, or if you are not a German citizen or do not have a German university entrance qualification)?
Then please do not create a new account, but log in to Alma with your existing student login data. As soon as you are logged in, you will find the selection option "Study application" on the left in the tab "Study offer". You can then use your student account to submit one or more applications for admission to the (partial) degree programs you are aiming for, and you will also receive the corresponding admission and rejection notices there (exception: DoSV degree programs - here you will receive the notices via your account at hochschulstart.de). If you receive an admission, you can have yourself transferred to the new study program by means of a postal request for transfer: <https://uni-tuebingen.de/en/849>.

For technical issues please contact [alma-support\(at\)uni-tuebingen.de](mailto:alma-support(at)uni-tuebingen.de)

Have you registered for your BundID account without electronic proof of identity?
Then you will also need a PIN to apply for payment of the 200 euro one-time payment.
You can download your PIN here: [My Studies > Student Service > Requested > Reports / Reports](#)

EPPSG-Website
Apply via the EPPSG website for the one-off payment for students: www.einmalzahlung200.de

Organizational unit

- Institute of Linguistics (person responsible)

Frequency of offer only in the winter term

Contents

Students studying General Linguistics ('Allgemeine Sprachwissenschaft') need to pass the course "Introduction to General Linguistics". In this course you will gain an overview of the four core areas of linguistics and acquire fundamental analytical skills needed for the study of language. This course covers:

- Phonetics and Phonology (the study of speech sound production and sound systems in different languages)
- Syntax (the study of the structure of sentences)
- Semantics (the study of the meaning of words and sentences)
- Pragmatics (the study of the use of language in context)

The material will introduce basic the approach of

Typological methods in the study of language

Linguistic typology aims at comparing languages in order to describe and explain their similarities and diversity on the basis other than genealogical relatedness. Typologists deal with large samples of genealogically and geographically diverse languages, and create large databases where the frequency of certain linguistic phenomena as well as of their combinations is reflected. In this course, we will start with introductory lectures on the technique of language sampling, working with grammars, and comparing languages with different typological profiles. Students will then have hand-on experience with several typological databases. Finally, together we will compile a typological database of certain phenomena. Each student will get a set of grammars to work on and will proceed with filling out the shared database. Each student will write a term paper on the typological description of one linguistic aspect of this database.

- The process of searching for courses is basically the same on every platform, whether you have CL/GL as a major or minor.
- Major = HF (Hauptfach), Minor = NF (Nebenfach)
- If you are looking for courses of another study programme (Studiengang), you just have to click on the right departments/faculties and you should be able to find any course.
